

Ahoy NOPC paddlers!

We are looking for your input. Rumour has it that the redesigned dock is to be installed in May. Once completed, the next project will be to get our new storage facility built. We are looking for input on how we should organize the space to house our current inventory, with some thought to future growth as well. I have been asked by the board to put together a committee of interested members to work on a plan over the next month. I would like to run an initial meeting at the **Brechin Dock** on **MONDAY, MAY 8 at 7:15 p.m.**

We have the dimensions of the footprint. We now need to design a space from the ground up that will safely store the OC1s (5), OC2s (3), SUPs (3) plus the amas and iakos, leashes, maintenance and cleaning supplies, as well as the outrigger, dragon boat and SUP paddles. We also need a dry and airy place to store life jackets, a mail drop, and a safe storage space for keys and bags. We are also hoping that storage locker on the triangle will still be in use as well.

If you are interested in being on this committee, **please email** outriggerrep@nanaimooceanpaddlingclub.ca Also, if you have some ideas for boat storage design, please email them on as well. Pictures and diagrams welcome!

Thanks in advance for helping out your club!

Bill Humby, NOPC VP, Outrigger Rep
